

PROFESSIONAL BIOGRAPHY

of Zbigniew Jaroszewicz

Prof. Jaroszewicz was graduated from Warsaw University of Technology in Technical Physics in 1980. Then he worked at the National Institute of Telecommunications and Warsaw University of Technology. In 1986 he joined the Institute of Applied Optics, where he works till now holding posts of the Scientific Secretary of the Institute and the Head of the Physical Optics Department. Since 2004 he works again with the National Institute of Telecommunications, presently as a professor. He received his PhD and habilitation in physics from Warsaw University of Technology in 1988 and 1997, respectively. In 2009 he received the title of professor (awarded by the President of Poland).

In the years 1991–1995 he was associated with the University of Santiago de Compostela, Spain, first on his postdoctoral fellowship and then on sabbatical leave. From 1997 to 2000 he was a professor at the National University of Colombia in Medellin. He was also a visiting scientist at the University Jaume I, Castellon de la Plana, Spain, the Technical University of Cataluña, Terrassa, Spain, and the Royal Institute of Technology, Stockholm, Sweden.

His area of interest is the diffractive optics and its applications in adaptive optics, ophthalmology and telecommunications. He has published to date more than 250 papers and conference communicates, over 90 of them in indexed journals, which have gathered so far more than 1000 citations. He promoted 6 doctoral dissertations and reviewed another 21. He took part in 19 Scientific Committees of international conferences, being chairman of 7 of them.

Prof. Jaroszewicz is a member of the Optical Society of America, the Photonics Society of Poland (member of Board) and the International Society for Optical Engineering SPIE. Furthermore, he belongs to Advisory Boards of following optical journals: Photonics Letters of Poland issued by the Photonics Society of Poland, Revista EIA issued by Escuela de Ingeniería de Antioquia, Medellín, Colombia and Óptica Pura y Aplicada issued by Sociedad Española de Óptica, Spain.
